## Corporate Discount Program

One of the most critical needs of all businesses today is the stability of its work force. The tremendous investment to educate and train employees demands we provide each employee with the benefits necessary to keep their loyalty to their company. Parents are faced with a real dilemma, finding an affordable quality preschool program or making the decision to sacrifice their career and staying home with their children. This is a decision that today's parents are faced with and one that can be very costly to each employer.

Allow me to introduce you to a preschool-kindergarten program that has been in existence since 1975 with vast knowledge and experience in caring for and educating children. **Little Red School House** will reduce its weekly tuition rate for full time students by 5% and will charge your employees only one-half of the initial registration fee. This reduction for the full time tuition rate equates to a substantial savings for your employees.

**Little Red School House** is prepared to work with your company on an individual basis to assist in developing alternative child care programs designed specifically for you. For more information regarding our program, please call (859) 727-6148 during business hours.

Sincerely,  
*Chip Malley, President*

# Yes!

Our company would like to formally apply for your Corporate Discount Program. If we are approved, we agree to distribute Little Red School House enrollment literature to our employees on an annual basis.
